AND APPLICATION INSTRUCTIONS**

I. TYPES OF REQUESTS CONSIDERED BY THE PLANNING BOARD

CONDITIONAL USE - A use that would not be generally appropriate without restriction throughout a particular zoning district, but would be appropriate if controlled as to number, area, location or relation to the neighborhood.

CHANGE OF ZONING DISTRICT CATEGORY OR FUTURE LAND USE MAP DESIGNATION - The property owner(s) shall have a majority of frontage in the area in question. Said area shall contain not less than 400 linear feet of lot frontage on one public street or a parcel of not less than 80,000 square feet. These types of requests require City Commission approval and in the case of the Future Land Use Map, an approval from the Florida Department of Community Affairs.

AMENDMENTS TO LAND DEVELOPMENT REGULATIONS (LDRs) OF THE CITY CODE OR TO THE COMPREHENSIVE PLAN - Amendments pertaining to the requirements of the LDRs or Comprehensive Plan relating to the text, maps or regulations require City Commission approval and in the case of the Future Land Use Map, an approval from the Florida Department of Community Affairs.

HISTORIC DISTRICT/SITE DESIGNATION - This type of designation recognizes that a property is within a locally designated district or is a locally designated historic site. Historic Designation requires approval by the Historic Preservation Board prior to the review by the Planning Board and also requires City Commission Approval

SUBDIVISION OF LAND/LOT SPLIT - Lots, plots or parcels of land whether improved or unimproved, cannot be further divided or split without prior review and approval by the planning board. Lots can only be divided in such a manner that all of the resulting lots are in compliance with the regulations of the land development regulations.

ASSISTED LIVING FACILITIES (ALF) - Pursuant to Sec. 142-1252, adult congregate living facilities are subject to the following mandatory requirements and reviewed under the Conditional Use procedure:

- (1) The total number of adult congregate living facility beds in the city shall not exceed 2,000 per 100,000 permanent residents or fraction thereof. Facilities shall not be located in any designated redevelopment area or MXE mixed use entertainment district.
- (2) The design of the building shall be reviewed under the design review process pursuant to chapter 118, article VI.

- (3) The entire building shall conform with the South Florida Building Code, fire prevention and safety code, and to the City's Property Maintenance Standards. If it is a historic structure, it shall also conform to the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Structures, U.S. Department of the Interior.

EXTENSIONS OF TIME FOR TEMPORARY PARKING LOTS - Temporary parking lots cannot be permitted to exist for more than three years from the date of building permit issuance regardless of ownership. At the end of this period, an applicant may request from the Planning Board (prior to expiration) one initial extension of time for a period not exceeding two years. In granting the initial extension of time, the board shall consider, among other things, whether the applicant has complied with all of the applicable requirements of the Code.

II. PROCEDURE. It is highly recommended that an applicant meet with staff before the filing of an application in order to discuss your project and avoid filing an improper or incomplete application and to determine what additional information, if any, will be required.

- A. All required exhibits, application forms, mailing labels and appropriate fees shall be submitted to the Planning Department by 12:00 noon of the submission date as per the schedule attached to this instruction manual. Incomplete applications will not be accepted.

It is the responsibility of the applicant to ensure that all questions in the application are answered, all required exhibits and supplementary data are submitted at the time of the filing of the application, and that all answers, plans, exhibits and supplementary data are accurate and complete. **INCOMPLETE APPLICATIONS WILL NOT BE ACCEPTED.**

- B. Since all property owners within 375 feet of your project must be notified of the project, the Department will provide the applicant with one (1) copy of the required notice, as well as the required number of envelopes and one (1) set of labels. The applicant in turn, will copy, stuff, label and stamp (with correct postage) all envelopes and return them to the Department for mailing by the return date indicated in the instruction sheet. Failure to adhere to this procedure shall result in the application being removed from the agenda.
- C. Approximately 15 days prior to the public hearing date, Planning staff will post a public notice on the property with a description of the request, time and place of the hearing. The public hearing will also be advertised in the newspaper and on the City's web site. It is the responsibility of the applicant to notify this Department if the public notice posted on the property is removed.

- D. The Planning Board will consider the application during a public hearing, allowing interested parties and members of the public to be heard. The Planning Board members will discuss the merits of the application and will approve or deny the request. The Board may alternatively request additional information from the applicant and request that the matter be continued to a future meeting.

After the approval of a request by the Planning Board, a final order will be completed and executed. The order will be mailed to the applicant or representative for recordation in the public records of Miami-Dade County, Florida. The original recorded order **must** be returned to the Department before any approvals can be issued for a building permit, Certificate of Use, Certificate of Completion or Occupational License, whichever may occur first.

10. Additional Requirements/Waivers - IMPORTANT. Section 122-4 of the City Code requires that unless exempt under the provisions of section 122-5, no development order shall be granted unless the applicant for development approval is the holder of a **valid preliminary concurrency determination**. For those applications that consist of a request for any kind of entertainment establishment, parking garages, or as determined by Planning Staff, the Concurrency Management Division must provide a valid preliminary concurrency determination prior to an application being considered by the Planning Board. These types of applications will not be considered by the Planning Board unless the Concurrency Management Division provides a valid preliminary concurrency determination. A traffic impact study, completed by a Professional Traffic Engineer, may also be required. Please contact the City's Concurrency Manager at 305-673-7514 for additional information.

The Planning and Zoning Director may establish additional requirements for site plans, and in special cases, may waive a particular requirement, if, in his opinion, the requirement is not essential to a proper decision on the project. Therefore, as suggested in Section II above, a preliminary meeting with staff can help establish the requirements of an application.
